DESPERATE ATTEMPT

TO ROB

THE KENT NATIONAL BANK KENT, OHIO.

FAILURE OF THE BURGLARS

THEY COULD NOT DRILL

THE SPIEGEL EISEN

On Saturday evening, the 3d of November, our bank was entered by burgiars. The office of the bank being without an occupant, they had undisputed possession, and I have no doubt employed their time uninterruptedly till morning, in efforts to reach the treasure or the bank. But thanks to the protection afforded by one of your Burglar-Proof Safes, which on this occasion proved to be impregnable, they were folled.

The outside or file proof door of the Safe was drilled and blown open. They then commenced on the burglar-proof, and after knocking off the dial of the lock and knob that throws the bolts, they attempted to drive the lock off, but without success; they also used wedges and a heavy sledge, but falled in all. They left behind them a large assortment of tools, consisting of two crowbars, a heavy sledge, wooden mallet, two steel wedges, and a variety of chisels.

Having occasion to be at my office (which is connected with the bank) at about 11 o'clock A. M. on Sunday, I made the discovery of the aforesaid visitation, and failure to open the burglar-proof part of the Safe, although they had knocked off the dial plate to the lock, and otherwise disfigured and abused the Safe, which prevented any one but a skilful operator or practical manufacturer of safes and locks to open the Safe.

The necessities of the case were plainly presented, and we lost no time in despatching an cont to Cleveland to new to open our Safe. Calling at your agency, no suitable person was found. We then applied to another house in the Sale business, who very kindly furnished us a practical manufacturer of Safes, a person who understood the science and the manufacture of locks and Safes to per-

He arrived, and with the assistance of two of the most powerful men in the village (quarrymen, who are famous for heavy strokes with the sledge hammer); operations were commenced at 10% o'clock A. M. on Monday, and the work continued unceasingly till 8 o'clock P. M., when they became too tired to work longer, and ad-

The next morning, about 71/2 o'clock, the work was again resumed with the same help, and at II A. M. success attended our efforts, and we again had the pleasure of knowing that our property was safe. Had it been placed in a less powerful Safe, the tables would have been turned in favor of the robbers,

Mr. H. A. Kent, of the house of Kent & Co., of your city, has instructions to arrange with you for a new Safe.

Yours truly, MARVIN KENT, President Kent National Bank. Kent, Ohio, November 17, 1866.

MORE ABOUT

LILLIE'S CHILLED-IRON SAFES

IMPORTANT FACTS WHICH THE PEOPLE SHOULD

"MAKE A NOTE OF."

PACT 1.—LULLIE'S CHILLED-IRON SAFES have been largely introduced for the last twelve years, and sold to those having the largest account of valuables, as the best and most thoroughly Burglar-Proof Salet and, up to the last three years, it has been as rare to hear of one of Lillie's Safes having been robbed by burgliers, as to see or hear of a white bine kbird or a white elephant.

WFACT IL-It is notorious that the profession of the Exact II—It is not of long that the profession of the burgiar has advanced at a racid pace within the last eight years, and what was thoroughly burgiar-proof then is not so now, which accounts for the fact that within the last three years very few of fallie's Sates have been robbed, and the secret anonymous circulars distributed by other safe-makers interly, showing a very few cases only, is the strongest evidence that bit a very small number have been robbed to this time, notwithstanding the large number in use, and the amount at take it successful.

FACT III.-There are two, and only two, general Fact III.—There are two, and only two, general and leading princidles upon which all burglar proof sales are constructed. The one is pouring liquid iron between and around bars of wrought fren, hardened street, or any proper combination of metals. This principle is adulted by Lillie, in the Chilicular patent. The principle is adulted by Lillie, in the Chilicular patent.

The other is made up of layers of plates, of different metals, held together by boils or rivers, or both. To this principle there are various objections: The cost is double. The wreight from plates, which are the strength of the sale, are ourside, and are operated upon by the whole catalogue of burgiars' tools. The boils or rivets are easily forced by suitable tools, with or without powder, and cannot be sustained. The former principle, adopted by Little, avoids all these objections, can be made any thickness, and with stand any amount of resistance required; avoids the rivets, boils, etc.; has no wrought from outside to be operated upon by burglars' implements.

FACT IV.—Mr. Lillie, the Palentee, so soon as he learned that it was possible with the modern to-proved tools for burglers to grind through chilled from or hardened steel, began experimenting to avoid the difficulty, and after much labor and expense ne has perfected a system for chilling from and combining metals that is entirely proof against the burglar's drill, or any other of his tools, even the wedge, warranted to stand the hardest test practicable for any burglar to make. As a croof of his success, the following certificate is now offered from the Novelty Works, New York:—

burglar to make. As a troof of his success, the loilowing certificate is now offered from the Novelty
Works, New York:

OFFICE NOVELTY IRON WORKS,
NEW YORK, 18th December, 18th.

Meners, Lewis Lillie & Son.—
GENTLEMEN:—We have subjected the sample of
Chillied Iron you furoished us to the most severe tests
tas regards drilling through it) that we could bring to
hear upon it, and without success.

It is our opinion that it canonly be penetrated by
the use of a large number of drills, and the expenditure of much power, with days of time.
And we think it impossible for a burglar, with his
time and power, to penetrate it at all.

Yours truly,

Yours truly,

ISAAC V. HOLMES, Superintendent,

LINMAN G. HALL, Foreman.

And the following extensive from manufacturers in
Philadelphia, Boston, and Chicago, after the most
thorough tests. Bind the result to be substantially the

And their principal from Workers so certify esses, Merrick & Son, Southwark Foundry, Philadelphis.

The Finkley & Williams Works, Boston, Mass,
The Union Foundry and the Northwestern Foundry, Chicago, III.

FACT V .- The proposition made the public herete FACT V.—The proposition made the public hereto-fore is now renewed: I will surnish Sales or Vault Doors, of same size and capacity of other best makers, and at one-third less price; and the same may be rested when finished, and I will furnish the man to test the work of any other maker, and he shall fur-nish the man to test my work; and the party so order-ing may recept the work which stands the most re-sistance, in any wayor manner practicable for a burglar to work.

Lille's Safes, that, in view of the preceding facts, if they feet the need of additional security, I will ex-change with them, on this terms giving them all the late improvements, and the increased security which is claimed to be beyond the reach of Burgiars, until e new system shall be developed in the working of Iron, which would now seem hardly possible FACT VIL-It is true that the Sheet-Iron or common

It is equally true that the Chilled-Iron Safe saves

It is equally true that the Chilled-Iron Safe saves the written matter in a perfect state, that it does not lade out or require copying, and that the safe inself is ready for jurther use. Any number of trials in fire, certified to, prove these insta, and if any of the safe yeaders who are distributing secret, amonymous circulars to injure the reputation of LLLLIE'S SAFE are not satisfied with those statements, they can have the opportunity of testing by fire one of their own Safes with LILLIE'S, on equal terms, whenever they so decide.

FACT VIII.—In answer to the story circulated by interested parties, that Lillie's safe had gone up, and had ruined Lillie, etc. I would say that at no time in the last two years could Lillie & Son half supply the demand for Safes, and were under the necessity of orming a large stock company, with a very apital, to meet the demand; and Mr. Lewis Lill capital, to meet the demand; and Mr. Lewis Lillie, Sr., is now the president of that company, which is located on the Delaware in Pennsylvania, near Easton, and is the largest Safe Works probably in existence, and will be able to supply all demands for Safes, Locks, Chilled-Iron Vaults, etc.

chilled-fron Vaults, etc. The state of the attention of my patrons and friends, and the public, to the facts here presented, and to say that I am very thankini for past lavors, and that I am prepared to furnish Lillie's BURGLAR AND FIRE AND BURGLAR LILLIE'S BURGLAR AND FIRE AND BURGLAR THON VAULTS and COMBINATION LOCKS, all at short notice, warranted to be the best and cheapest in market. I also keep constantly a large assortment of second-hand Fire Proofs, taken in exchange for Lillie's Burglar Proofs, of the best-known makers, all put in good order, and offered at below usual adcition prices.
